

CROCHET LESSON 5

Half Double Crochet (US)/Half Treble crochet (UK)

Half double/half treble

Half double crochet (US) and half treble crochet (UK) are the same stitches. You will usually be told when following a pattern which terms are being used, but on the odd occasion that you aren't, if single crochet is mentioned then US terms will be used.

Half Double crochet is seen abbreviated as HDC and Half Treble crochet is seen abbreviated as HTR.

HDC/HTR in rows

As you will find which you start to following patterns, HDC/HTR can be crocheted into rows.

When working in rows you will turn at the end of the row. After completing the last row you will need to turn your work and chain 2. You will then skip the first HDC/HTR as pictured below.

When following a pattern it will tell you how many chains to start with, as you can see below we have ch 17

You will then need to start your hdc/htr into the stitch indicated below. These skipped stitches will be treated as the first hdc/htr.

You will then hdc/htr into each chain to the end. You will have 15 hdc/htr.

Upcoming Lessons

Lesson Size

Double Crochet (US) / Treble Crochet (UK)

Lesson Seven

Treble Crochet (US) / Double Treble Crochet (UK)

Lesson Eight

Double Treble Crochet (US) / Triple Treble Crochet (UK)

Previous Lessons

Lesson One

Choosing your yarn and hook

Lesson Two

Starting Loop and Holding your Yarn

Lesson Three

Starting Chains and Magic Circle

Lesson Four

Single Crochet (US) / Double Crochet (UK)

Massive Thank you to Becci 😊
